POPE AND DIPLOMATS

Reception Accredited to Holy Sea Not Surpassed by Vatican Functions.

KISSED POPE'S HAND.

A Collective Greeting Was Offered Pius X., Who Eyed Diplomacy and Knowledge of the Politics of Other Countries.

Rome, Aug. 6.—During one full hour this morning there seemed to be nothing but vibrating sounds, so penetrating were the strokes of the bells of about five hundred churches which, all ringing together, absorbed all other noises, in honor of the election of Pius X. Welcome was most unique of its kind, and was ordered by Cardinal Respighi, vicar of Rome, who issued special instructions therefore. All churches contemporaneously celebrated mass for the event, intoning oramus combining with harmony.

The bells involuntarily served another purpose—that of ringing in the great ceremony reception of the diplomatic body accorded to the Holy See. Rome has lately been surfeited with vatican functions, but that of this morning was so striking that it held its own with others. Members of the sacred college gathered before the hour set for the ceremony and held an informal reception conclave.

The procession then formed: First came the Swiss guards, which gives a peculiar medieval splendor to all papal gatherings, then the Palatine guards followed in irregular ranks by the whole pontifical court in multi-colored costumes, cardinals in all the gorgeousness of their scarlet robes, and bishops scarcely less striking in purple. The pope in spotless white, his grey hair in harmony with his whole attire and surrounded by the noble guard, who always remain near his person, went on foot just as others.

The procession having gained the hall through where the members of the diplomatic body gathered, Senor d'Antas, Portuguese ambassador and dean of the corps, read in a clear voice, a collective greeting of his colleagues, presenting their homage to the new pope and assuring him of their fidelity. Pius X. answered with great cordiality, thanking them heartily for good wishes. All then kissed his hand and the pontiff took this opportunity of speaking personally to each, showing knowledge of the politics of divers countries, which surprised the diplomats, the new pontiff being credited with taking small interest in affairs outside of Italy. It is another surprise to them to hear him speak French, if not fluently at least with certain readiness. Altogether the whole audience gave promise of a new era of international cordiality at the vatican.

Coronation Ceremonies Sunday.

Rome, Aug. 6.—Coronation ceremonies will be performed at St. Peter's Sunday according to the rite dating from the latter part of the fourteenth century. As the pope enters the church the clerk of the papal chapel holds up before him a reed surmounted by a handful of flax. This lighted, it flashes up for a moment and then dies out at once as the chaplain chants: "Pater Sancte, sic transit gloria mundi" (the holy father thus passeth away the world's glory). This is done three times. Mass is then begun as usual, but before the incense altar "the blessing of the pontiff elect" is pronounced by three cardinal bishops, each of whom recites a prayer over him. After collects, come the so-called laudes, that is, three-fold supplications to God for the welfare of the new pope.

The coronation itself takes place after mass in the balcony over the portico of St. Peter's, overlooking the great piazza. The second cardinal deacon takes off mitre which, until now, the pope has worn and then the senior cardinal deacon (Machi) places tiara on his head and all the people cry out "Kyrie eleison." The pope reckons the pontificate from the coronation day, although of course he is pope from the day of his election.

Pintiff's Chief Private.

Rome, Aug. 6.—Pius X. has appointed his conclavist, Mgr. Gressan, as private chaplain, which means that he will also be the pontiff's chief private secretary.

RESCUED HIS MOTHER.

From Drowning in the Surf, Then Yields to an Undertow Himself.

New York, Aug. 6.—After rescuing his mother from drowning in the surf at Coney Island, Frank Masters, an expert swimmer from Brooklyn, has lost his life in the undertow. There was a heavy sea breaking on the beach when Mrs. Masters, a fairly good swimmer, became exhausted and Frank rushed to her rescue. He swam with his mother to the beach and then entered the water again. After a dive he failed to reappear and the frantic mother, aided by the guards, found his body an hour later, half a mile away, thrown back upon the beach by the tide.

Noted Illustrator Dead.

London, Aug. 6.—Phil May, the artist and illustrator of Punch, the Graphic and other periodicals, is dead.

DEFENSE WITNESSES

A Number Placed on the Stand in the Jett-White Case.

FORMER NEAR TREE.

Miss South Testifies That He Was Standing in the Courthouse Yard After the Firing of the First Shot at Jackson.

Cynthiana, Ky., Aug. 6.—In the case of Jett and White the defense placed Miss Lula South, a sister of Judge Hargis, on the witness stand Wednesday morning. Her testimony was contradictory of Miss Emma Clark, who testified for the commonwealth on last Friday. Miss South corroborated other witnesses for the defense in placing Curtis Jett near the tree in the courthouse yard after the firing of the first shot. She was employed in her brother's store as a saleswoman.

Dr. J. E. Taulbee said that Ewen had told him he could not tell who fired the first shot killing Marcum.

Tom O'Connor testified and corroborated the evidence of Bowling and Adams of Wednesday, and placed Jett near a tree in the courthouse yard.

Charley Thompson, a new witness, contradicted Ewen and corroborated Taulbee.

Judge James J. Hargis was placed on the stand. He said he was county judge of Breathitt county and a member of the Democratic state central committee, and a brother of Senator Alex. Hargis. Hargis saw Ewen run and Marcum falling while he was at a showcase in his store. He saw Dr. Kash and Mr. Blanton on the street immediately after the shooting; saw Curtis Jett on the street corner near a tree after the shooting. He said Sheriff Callahan was at his store, and he prevented Callahan from going out. Later, witness sent for Captain B. I. Ewen to talk about the murder.

Judge Hargis was cross-examined by General Byrd. In reply to a question as to why he stood by Jett, his nephew, when they did not speak to each other, Hargis said Jett was not tried by being brought to court by fifty soldiers and a Gatling gun. When pressed, Hargis said that Jett's mother, who was his eldest sister, had cared for him during the war when his father had been run away by Federal soldiers, and as an honest man, he now wanted to repay the debt with interest.

SEVEN HUNDRED DROWN.

Two Thousand Chinese Left Without Means of Subsistence.

Berlin, Aug. 6.—A dispatch received here says that 700 persons were drowned in the disastrous floods which occurred at Chefoo, China, July 27. The bridges within the city, and many houses with their occupants were swept away. Two thousand of the inhabitants are left without means of subsistence.

Whittaker Wright Remanded.

London, Aug. 6.—Whittaker Wright, the promoter, and director of the London and Globe corporation, limited, was arraigned at the Guild hall police court and remanded, after formal evidence of his arrest had been taken. The prisoner was released on bail of \$250,000, of which he provided \$125,000 and three sureties guaranteed the remaining \$125,000.

Danger of Strike Passed.

Chicago, Aug. 6.—Officials of the Chicago, Rock Island and Pacific railway and representatives of the grievance committees of the trainmen and conductors were in conference Wednesday, and as a result, all danger of a strike is declared by the union leaders to be passed.

"I Love the Americans."

Rome, Aug. 6.—The Associated Press representative was received in audience Wednesday by Pope Pius, being the first journalist of any nationality to have this honor. The pontiff graciously granted the prayer of the correspondent to send a message to the American people, saying, word for word: "I love the Americans, who are the blooming youth of Catholicism. Convey to all of them how gladly I impart my apostolic blessing to the whole country."

Wishes Reinstatement.

Rome, Aug. 6.—Count Muccioli of the Holy Guard, who was attached to the pontiff during the conclave, and who has an American wife, availing himself of the privilege to ask the new pope a favor, has implored Pius X. to reinstate his comrade of the Noble Guard, Count Pietro Machi, who, not long ago, was suspended for having given an afternoon tea inside the Vatican to several ladies of the Quirinal society, including Mrs. Moyer, the wife of the American ambassador.

THE DAILY EAGLE.

Entered at the postoffice as second class mail matter.

BY CONNELLY & CARNES.

Per Week, 15c. - - Per Month, 40c.

BRYAN, TEXAS, AUG. 7, 1903.

BRYAN A FREIGHT TERMINAL.

I. & G. N. Division Headquarters Re-established Here—G. W. Showers is Foreman.

Orders were received here Wednesday night making Bryan the freight terminal on the Ft. Worth division of the I. & G. N. between Mart and Houston, and re-establishing division headquarters here. Freight crews were changed here Wednesday night in accordance with the orders, and the hotels immediately felt the effect by the reappearance of the railroad men in our midst.

Division Foreman W. C. Burel came down from Mart to get things in shape and will be here regularly from time to time. Mr. G. W. Showers is already here in charge of the work as local foreman, and will have a force of men under him for repair work, etc.)

The change will bring twenty-five or thirty-five men, most of whom have families, back to Bryan and will create a demand for rent houses and stimulate trade considerably, the pay roll being large enough to cut quite a figure in the business of the local merchants.

The number of employees will be increased as business grows and necessity requires. The men that are coming back are freight crews, repairers and men to handle coal and look after engines in the yards. Many of them will be those who

were here before and it is gratifying to know they are as glad to get back as Bryan is too see them.

The return of the division point to Bryan indicates of course that the arrangement is permanent, and having already an abundant water supply and one of the largest turn tables owned by the company located here, it is easy to see that the building of a round house will follow in due course, as soon as the road gets in shape to spare the time and labor required for building.

The I. & G. N. people are making good their promises and from the many expressions heard on the street yesterday their course meets with the hearty approval of the people of Bryan.

BOLL WEEVIL REWARD.

Notice is hereby given that at a meeting of the boll weevil board held at Austin, Texas, on the 5th day of August, 1903, it was determined by said board that experiments for the destruction of the boll weevil will be made and carried on at San Marcos, Hays county, on Monday, the 17th of August, 1903; at Taylor, Williamson county, on Thursday, the 20th of August, 1903; and at Brenham, Washington county, on Monday the 24th of August, 1903. All persons who desire to have their remedies tested and who have complied with the law by making the necessary affidavits will appear at the times and places mentioned.

S. W. T. Lanham, Governor.

Mr. M. W. Dickey and family left yesterday for Lufkin, Texas, where Mr. Dickey will take the foremanship of the Lufkin Daily Herald. He has been with the Eagle the past two years and he and his estimable wife have made many friends here, who sincerely regret their departure.

Mr. M. Parker, Chairman of Anti-Prohibition Committee:

My Dear Sir: In reply to your communication to me which appeared in the Morning Eagle of the 3rd instant, asking for a joint discussion, at ten different points in the county, of the Prohibition question, will say after due consideration and conference with my committee that we have concluded it will be best for both sides to decline your proposition for the following reason: Joint discussions on questions of local concern are liable to bring about unpleasant controversies and personalities, which we are determined to avoid during this campaign.

Very Respectfully,

Painting the Capitol

No piece of exterior painting during the past decade has attracted more favorable attention than which is soon to be completed on the National Capitol. Some fifteen hundred gallons of paint will be applied by a force of eighteen men working about two months. The job is fraught with dangers and difficulties owing to the very irregular contour of the architecture. The paint used is of the ready mixed order, and was specially prepared by Messrs. HARRISON BROS. & Co., Inc. It is said that the firm was aided in securing this valuable contract by the fine reputation enjoyed by their "TOWN & COUNTRY" brand of ready mixed paints. That the Capitol looks much better than it has in many years is a matter of much comment in Washington. It is said that one of the best known architects in the country was so impressed by the improved appearance of the Capitol that he sent congratulations to the Messrs. Harrison on the excellent quality of the paint. From the Paint, Oil and Drug Reporter, July, 1903.

The wagon and contents, including Mr. Nevils' hat, shoes and coat, were lost. He saved his team by five hours hard work. Prof. R. E. Scott followed Mr. Nevils and had a rough experience, but got out. Next morning he reached Bryan minus his watch and coat.

Mr. H. O. Boatwright returned yesterday afternoon after visiting Chicago and other points north. He was accompanied home by his daughter, Miss Esther Boatwright, who has just finished a course in music in Chicago under the famous Italian musician, Signor Marescalchi.

OFFICES RAIDED.

Senior Member of Firm Arrested, and All Employees Detained.

New York, Aug. 6.—The police raided the offices of Daniels & Co., arresting Daniels and detaining all employees in the offices. The raid is said to have been made at the instigation of the district attorney's office. According to the sign on the door of the offices, the firm did business as bankers. The raid was made on warrants issued on the specific complaint of Edwin E. Collins of Cedar Rapids, Ia., that he had lost \$150 through the firm. Collins told the police, however, that he had given almost a thousand dollars to the firm and had never received a penny in return.

KIDNAPING CASE.

Mother, Armed With Revolver, Secures Her Child and Escapes.

Cincinnati, Aug. 6.—Sensation kidnaping by a mother, armed with revolvers, took place in Newport, Ky., Wednesday. Mrs. Arville Turner, who is living apart from her husband, accompanied by a woman, went to the house of Mrs. Taylor in Newport, and at the point of a revolver demanded admittance to get her child, six years old. Mrs. Taylor, frightened, ran upstairs to where the boy was sleeping. Mrs. Turner broke open the screen door, followed up stairs and still brandishing the revolver, secured the child and rushing to the street, escaped in a wagon.

In Honor of the Pope.

City of Mexico, Aug. 6.—Peals from church bells in this and the leading cities of the republic greeted the announcement of the new pope's election. The relations of Mexico and the Vatican, while having no formal basis, are friendly, and it is believed here that Pope Leo directed that the clergy should cordially support the republic and abandon all imperialistic pretensions.

Prominent Publisher Dead.

Denver, Colo., Aug. 6.—O. P. M. Bookwater, who was financial agent of the Curtis Publishing company of Philadelphia, the publishers of the Ladies Home Journal and the Saturday Evening Post, is dead at the Oakes home in this city, of consumption. Mr. Bookwater was a native of Indiana where he was born in 1866. With Mr. Bookwater at his death was his brother, C. A. Bookwater, mayor of Indianapolis.

Dowie a Citizen.

Chicago, Aug. 6.—John Alexander Dowie, general overseer of the Christian Catholic church, was made a citizen of the United States Wednesday upon renouncing in the superior court his allegiance to the sovereign of Great Britain.

Small Failure.

New York, Aug. 6.—Laidlaw and Garrie, members of the consolidated stock exchange, have announced suspension. The firm did a commission business and was not extensive. The failure is without general importance.

Bankrupt Petition.

New York, Aug. 6.—James Livingston, a well known builder of this city, has filed a petition in bankruptcy with liabilities \$1,546,300 and no assets. Of the liabilities \$1,407,900 were secured by bonds and mortgages on West Side residence property.

Prohibits Zionists Meetings.

St. Petersburg, Aug. 6.—The governor of the province of Kherson has been instructed by the ministry of interior to prohibit all meetings of Zionists and forbid collections and subscriptions.

Odd Dwelling Sites.

The people of Tupaselei have no need to travel far when they want to take a salt water bath. The town is built on piles which have been driven into a submerged coral reef situated far out in the Torres strait to the south of New Guinea. Opposite this extraordinary settlement on the mainland is another village that is perched high in the air among the gigantic palm trees with which the coast is fringed. The object of both communities in choosing these curious sites for their dwellings is identical. They desire to assure themselves against being surprised by their numerous enemies, and especially they seek safety from the prowling Dyak head hunters.

The Oldest Known Bookkeeping.

In the primitive villages of the Andes, scattered through Peru, Bolivia and Ecuador, the descendants of the ancient Incas depend upon the "kipu" for keeping all their accounts. It was in use when Pizarro conquered Peru, and the Andean Indians have never improved on it. It is the oldest known form of bookkeeping. The "kipu" is simply a collection of knotted strings. Differently colored strings denote different articles in daily use and ten distinct knots the ten numerals. In the absence of a written language it is a marvelously perfect system. Large transactions are conducted as accurately by it as if double entry bookkeeping were employed.

Value of Recreation.

There are wisdom and strength in genuine pastime. One often accomplishes more by spending a pleasant evening in some innocent games or other amusement than he would by poring over books with tired brain and exhausted body. He may have had qualms of conscience about it and thought that evenings given to social enjoyment were practically lost out of his life. Far from it! To better purpose than he dreamed of was the time employed. Body and mind were strengthening and, unconsciously, without effort, being fitted for better work in the future.—Success.

BRYAN'S PLAIN WORDS

Declares His Party Put a Bunko Steerer at the Head of It.

QUESTION OF SILVER.

Has More Respect For a Republican Than For a Democrat Who Would Put His Principles on an Auction Block or in Junk Shop.

Urbana, Aug. 6.—Four leading Democrats opened the Ohio campaign here Wednesday, two weeks in advance of the Democratic state convention. W. J. Bryan had been engaged to address the Urbana Chautauque assembly and the Democrats of this county held their convention on the Chautauque grounds during the forenoon, at which addresses were made by Bryan, John L. Zimmerman, Mayor Johnson of Cleveland and ex-Congressman Lentz of Columbus. The assembly's Democratic day programme attracted one of the largest crowds ever seen on the grounds.

The addresses all attracted attention because of the direct reference to certain well known men, as well as to policies on which there are differences within the party. Bryan referred to ex-President Cleveland repeatedly.

Zimmerman, who followed Bryan, referred to fathers of Democracy and "the eternal principles" of the party. Then came Mayor Johnson and ex-Congressman Lentz in emphatic declaration that this was no time for "dead issues."

The "keynotes" of the last two speakers were not in accord with those of Mr. Zimmerman, whose managers had secured the Champaign county delegates before Johnson reached the tabernacle. As this county is in the same congressional district as Zimmerman's home, the Johnson men were at odds, but still they contested at the primaries. The convention stood 130 to 50 for Zimmerman, but in deference to the visitors, no ballot was taken.

Bryan received his greatest ovation when he said: "The Democrats in 1892 played a confidence game on the people and put a bunko steerer at the head of the party. I want to say to you, my friends, that the disreputable man who stands on the street curbing and leads the unwary traveler into a game where he loses his money is respectable compared to the man who accepts the suffrages of 5,000,000 people and then leads them into Wall street to be betrayed."

"Don't be deceived when they tell you that it was the silver question that drove people out of the party. Those who left the Democratic party are divided into two classes. Those who left because they understood the issue of the campaign. Those who left because they were deceived in the issue of the campaign, those who understood the issue and left because they elected it can never return to the party until they repent and their hearts and sympathies are changed. The fight will continue in this country until one side or the other is triumphant."

Then he continued by saying he had more respect for a Republican than for any one calling himself a Democrat "who would put his principles on the auction block or in a junk shop."

ALLEGED SHORTAGE.

Deficit Said to Be Two Hundred Thousand Dollars.

New York, Aug. 6.—An official of Dunlap & Co., manufacturers, who conducted stores in various cities, confirms the rumors recently circulated to the effect that a shortage was discovered in the accounts of one of the former officers of the company, which will fall heavily on the estate of Robert Dunlap. The estate of Robert Dunlap, who died three years ago, appraised at \$100,000, and rumor had it the deficit amounted to \$200,000. Those familiar with the matter absolutely refused to give the true amount or man's name charged with causing shortage, but said no action will be taken against him. The heirs of the estate, which is held in trust by Mrs. Dunlap, are five children, including William A. Dunlap of Chicago.

AGED CHARIOT.

Believed to Be the Oldest of its Kind in the World.

New York, Aug. 6.—A bronze chariot, which is believed to be the oldest relic of its kind in the world, has been purchased in Paris by the Metropolitan museum. The relic, which is in a state of excellent preservation, is believed to date from a year about 700 B. C. It was discovered a year ago in the excavation on a private estate near Rome and offered for sale to European museums at \$200,000. How much it cost the New York museum is not known, but the price is stated to have been something less than \$100,000.

Must Refuse Demand.

London, Aug. 6.—In the house of commons Premier Balfour, in reply to Henry Norman, announced that instructions had been sent to the British minister at Peking not to agree to Chinese government's demand for surrender at Shanghai of the editor and staff of the reform organ, Supao.

ROOSEVELT AND ROOT CONFER.

Secretary of War Visits President at Oyster Bay Before Sailing.

Oyster Bay, Aug. 6.—Secretary of War Root, after a conference with the president which continued some time, has returned to Washington. This will probably be his last visit to President Roosevelt before the secretary leaves for England to attend the session of the joint commission appointed to determine if possible the Alaskan boundary dispute. The president and secretary discussed at length some points which have arisen regarding the operation of the general staff of the army. It is understood to have been decided that Major General Corbin, for a time at least, will continue to perform the duties of adjutant general of the army, in addition to his work as second in command to the chief of staff, Major General Young. Few details of the work of the general staff yet remain to be worked out.

CYNTHIANA COURT GRIST.

More Favorable Evidence By Defense in The Jett-White Trial.

Cynthiana, Aug. 6.—In the case of the commonwealth of Kentucky against Jett and White, the defense put Henry F. Wilson, a whiskey drummer of this place, on the witness stand to prove the fact of a large hole in the floor of the court house at Jackson. His testimony corroborated fully Dr. Taulbee, James Hargis and Ed Callahan, and also corroborated John Ibner, John Smith and Tom White as to the fact of there being trees between the house of Marcus and the rock quarry. On cross examination he said his expenses were paid to Jackson and he was to get \$10 besides. Green Strong and James Lee, other witnesses, were introduced to prove the bad character and reputation of Captain Ewen. On cross examination they were made to materially contradict former statements. Curtis Jett and Tom White were recalled to the stand and asked by defense to go to the farther end of the court house and stand side by side with their backs to the jury and their hats on. This is upon the theory of the defense that they looked much alike and so nearly the same height that at several hundred yards they could not be told apart.

BULGARIAN OFFICERS ARRESTED.

An Echo From The Assassination of King Alexander.

Macedonian Troubles.

Constantinople, Aug. 6.—Consular advices from Monastir indicate the situation in Macedonia constantly growing worse. At a meeting of ministers it was decided to adopt measure of extreme severity in order to suppress the revolutionary movement. It is reported that Albanian troops will be employed in which event massacres are almost inevitable. The Bulgarian exarch was summoned to Yildiz palace and urged to make final appeal to his flock to deliver up arms and thereby avoid blood shed. It is asserted in some quarters that authorities are secretly arming Kurds, while endeavoring to convict Armenians of revolutionary intentions.
